Creating leaders in Genomic Medicine & Healthcare

For health professionals who work in primary and secondary care, our unique Genomics course will allow you to focus on the rapidly expanding field of genetics and genomics in medicine and healthcare, and will help students to advise and manage patients and family members with wide ranging rare and common/complex diseases.

The courses are delivered by a board who have an established international reputation in Genomic Medicine:

Prof. Dhavendra Kumar, Consultant in Clinical Genetics

Prof. Maggie Kirk, Genomics Policy Unit Leader, USW

Dr. Emma Tonkin, PhD Human Genetics

Prof. Steve Davies, Consultant Endocrinologist

Why choose to study with us?

- **Online** - flexible learning allows you to study when it best suits you
- **1 year part-time course** - the only PG diploma course delivered over one year
- Fees - the **least expensive** PG diploma course in the UK without making a compromise on quality
- **MSc** - one of few online courses that allows you to progress to an online MSc

Course Modules

Diploma course modules

Each diploma module runs for six weeks:

Module 1: Principles of Medical Genetics and Genomics

Module 2: Genetic Counselling

Module 3: Genomics and Society

Module 4: Practice of Clinical Genomics

Module 5: Reproductive Genomics

Module 6: Genomic Healthcare

Our tutors are recognised experts in Genomic Medicine and are experienced in delivering online learning through the following methods:

- Real life case problems linked to forum based discussions
- Individual learning portfolio
- Group/individual activity
- Case based examination

For all enquiries to enroll on the "Diploma in Genomic Medicine and Healthcare" course, please email Prof. Dhavendra Kumar direct- kumard1@cf.ac.uk OR dhavendra.kumar@southwales.ac.uk; Tel. +44 (0)7766310291

What our students think

As well as our **Genomic Medicine & Healthcare Course**, we also run **PG Diploma & MSc in Rheumatology, Respiratory, Diabetes, Endocrinology, Sports & Exercise Medicine, Obesity & Weight Management and Preventative Cardiovascular Medicine**. Below are a few comments from students:

“The wealth of knowledge from the tutors is vast - soak it up and the more you will achieve!”

- **Claire Foster, Nurse Practitioner**

“The highlight of the course for me was putting into practice what I had learnt.”

- **Elsie Naicker, Diabetes Specialist Nurse**

“I found the online learning very interesting. It enabled me to save money and time. Without online learning it would have been impossible for me to get this qualification.”

- **Dr Imad Eddin Rahamtalla, Doctor**

“This is the most outstanding course I have ever completed.”

- **Jacqueline Gouws, Dietitian**
